

CONCRETE LEVELING

Relevel and Restore
 Driveways, Patios, Sidewalks,
 Porches & Any Concrete Slab

Your Local Pros

Tomlinson Cannon are the professionals when it comes to leveling and restoring your sunken concrete. We have decades of experience raising concrete throughout Iowa City, Cedar Rapids and the Quad Cities. We repair driveways, sidewalks, patios, garage floors - any concrete slab. Our polyurethane foam injection repair technique is highly effective, long-lasting, much less expensive and much quicker than replacing your concrete.

	Foam Injection/ Polyjacking
The Process	Drill holes into sunken concrete and inject polyurethane foam (similar to the foam in your couch cushions). The foam expands, raising the concrete.
Installation Hole Size	Dime size (5/8"), patched with concrete.
Cure Time	Within 30 minutes.
Clean Up	No disruption to landscaping. Minimal clean up.
Environmental Impact	Non-toxic, eco-friendly, USDA certified biobased product. Smallest carbon footprint of all available poly materials

**Don't replace it.
 Raise it!**

FAST. CLEAN. EASY.

DON'T REPLACE IT.
